

## INTRODUCTION TO WHITCHURCH HIGH SCHOOL SIXTH FORM

Welcome,

I am delighted to introduce you to the sixth form at Whitchurch High School. As well as being well known for its high standards of teaching and learning, Whitchurch also has a reputation for supporting the individual student to achieve their full potential. This might mean excellence in academic achievement and being selected for the University of choice for many, or a learning pathway leading onto further education, apprenticeships, or sporting careers for others

Choosing your learning options at Post16 is one of the most important decisions you will make in school. As a result, we want to make sure that you have all the information you need to select the subjects and examinations that are going to help you in your future studies, career and employment. You will have the opportunity to discuss your options with staff, as will your parents/carers, before making your choices.

We are very proud of our Sixth Form Team who work tirelessly to help students in their studies, providing tailored individual support and/or additional pastoral support where necessary. They encourage participation in a wide range of valuable and exciting opportunities for sixth formers to illustrate the careers and opportunities available to them after Year 13. Their support and commitment to the young people means that they have enabled many students to reach their chosen destination.

Overall, our sixth form is a vibrant place to learn with students studying a wide range of courses along with opportunities to take part in community and support activities within the school and extra-curricular activities ranging from music and drama, sports and mentoring younger pupils.

We believe our sixth form offers an environment that is challenging, varied and rewarding and we hope you will be able to join us in the Autumn Term.
